

# Flat Pyramid Meditation Framed Wall Tapestries and Meditation Floor Mats

By Dr. Ray Turner,  
[www.whitebuffalopress.com](http://www.whitebuffalopress.com)

The flat pyramid is a sacred meditation symbol that is more than 4,000 years old. You will experience an optical illusion or a “phase shifting” when this tapestry is viewed face-on when this powerful symbol is framed and hung on your wall. You may see a pyramid shaped “well” at one time, and then a pyramid shape rising toward you at another time. You may also view the flat pyramid if, through meditation and concentration, you can avoid the optical phase shifting effect and consciously maintain the flat pyramid view. Dr. Ray Turner designed this five (5) foot square (60” x 60”) flat pyramid tapestry to be used as a meditation mat (without the framing) in his room-sized Gaia Gridworker Room Size Pyramid™. The illustration below is not as accurate or precise as the actual tapestry used in the framed wall hanging framed or the unframed floor meditation mat. This unique product is made of 6.8 Oz. canvas with a black color-fast base over which are laser printed 24 precise and progressively smaller (nested) golden squares.

This artwork is produced in the United States. This unique product can be used to establish a very powerful meditation room atmosphere when on each of your four walls you display a framed flat pyramid with the fifth flat pyramid on the floor as a meditation mat and centered in the room or within Dr. Turner’s Gaia Gridworker Room Size Pyramid™.
